Election/Restrictions

1. This application contains claims directed to the following patentably distinct species: 1) Maintaining subscriber performance data and facilitation of report for a TRAINER and 2) Maintaining subscriber performance data and facilitating report for TRAINEE. The species are independent or distinct because although related in design of system the operation and effect are not connected. TRAINER rankings and report is prepared differently than TRAINEE.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, at least claim 1, 2, and 7 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).
